## EARNINGS RELEASE 1020

## «localiza

Localiza's headquarters in Belo Horizonte, Minas Gerais, Brazil.
Special lighting with a message of hope for the community.

Dear Investors,

In 1Q20 we showed solid results, although we started to feel, in the last weeks of March, the effects of the Covid-19 pandemic in Brazil. Growth remained accelerated in the Car Rental and Fleet Rental divisions, with the average rented fleet in $1 Q 20$ increasing $36.4 \%$ and $20.2 \%$, respectively, compared to 1Q19. Seminovos sold 38,361 cars, already reflecting the impact of the closed stores in the last two weeks of March. The total fleet increased $31.3 \%$ YoY, with 325 thousand cars in a network of 608 branches in 6 countries in South America.

Our consolidated net revenues totaled $\mathrm{R} \$ 2,794.6$ million in 1Q20, $17.7 \%$ higher than in 1 Q 19 and net income was $\mathrm{R} \$ 230.9$ million in the quarter.

In March 2020, Localiza Fleet concluded the acquisition of $100 \%$ of the shares of Mobi7 Tecnologia em Mobilidade S.A., a telematics solutions company. This acquisition brings several opportunities for Localiza, as we expand fleet monitoring.

In the context of the Covid-19 pandemic, in March 2020, the Company instituted a crisis management committee acting on 5 main fronts: taking care of our employees, our customers, our operations, our liquidity and with a communication plan supporting all of our actions, enabling excellence in the alignment with all our employees. Subsequently, we added another front of social responsibility with an estimated contribution of around $\mathrm{R} \$ 10$ million, aimed at managing community support initiatives, with three pillars: assistance to the most vulnerable, contribution to the health system and support to the most affected stakeholders.

From the perspective of our employees, we have complied with the health and safety protocols, instituted the working from home policy, started offering online consultations with doctors and nurses for employees on a 24-hour online channel and created the "welcome" channel for psychological, financial and legal support. To add more, we have been doing weekly surveys to understand how our employees are absorbing the effects of the crisis, the social distancing, as well as the routine of working from home. We maintained team's meeting routines and provided office supplies to the employees, so that working from home is as productive as working from our offices.

Regarding our customers and operations, and complying with the Health Ministry guidelines and local legislation, we reduced the Car Rental operations to few branches and closed all Seminovos stores. Gradually, we are adjusting the opening of branches and stores according to the local and state enactment and the demand. Today, we are operating with 401 Car Rental branches and 108 Seminovos stores with in-person and online sales. Furthermore, we mapped the risks and opportunities, continue monitoring demand and adjusting prices and the size of the fleet. We are close to our customers and being proactive in negotiating with suppliers, adapting ourselves to the current scenario. We ended the quarter with approximately $\mathrm{R} \$ 3.9$ billion in cash and financial assets and had approximately $\mathrm{R} \$ 1.9$ billion to be paid to OEMs, which leaves us with an adequate cash position to overcome the crisis.

Given the Covid-19 pandemic and the consequent reduction in the Car Rental and Seminovos revenues, Management has also been working on several initiatives in all lines of costs and expenses in order to preserve the Company's results.

We reaffirm the Company's financial strength, agility in crisis management and the ability to adapt and execute to face the challenges brought by Covid-19 to our business. We remain optimistic about the drivers of future growth and investing in the competences needed for the post-pandemic scenario.

## 1Q20 financial highlights

Net revenues ( $\mathrm{R} \$$ millions)

(*) GAAP revenue including the effects of the reclassification of PIS and COFINS credits EBIT (R\$ millions)

EBITDA (R\$ millions)

Net Income ( $\mathbf{R}$ \$ millions)

## Average rented fleet

Net revenues ( $\mathrm{R} \$$ million)

In 1Q20, the Car Rental division's average rented fleet increased $36.4 \%$ versus 1Q19. In the same period, net revenues rose $28.8 \%$ with a reduction of $6.5 \%$ in the average rental rate.

The lower rental rates already reflect the quarantine that affected, in 1Q20, the demand for short-term segments, which have higher average ticket, as well as the ride hailing segment.

The utilization rate remained at healthy levels in 1Q20. The greater impact on the utilization rate should be seen in 2Q20, due to the mobility restriction.

## Average rental rate (in R\$)

The Car Rental division has been experiencing different impacts in each segment due to the pandemic: a) monthly rentals are more resilient given the longer rental duration, b) short-term segments are more exposed to the quarantine; and c) ride hailing, with volume resilience, but more sensitive to price. Thus, the impacts on volumes have been much less relevant than that of international peers, more exposed to airports.

## Number of car rental locations - Brazil and abroad

As 1Q20, Localiza's network included 608 rental locations, being 528 in Brazil and 80 in 6 other South American countries.

In 1Q20, we reached the number of 80 branches abroad, opening 6 branches in Chile, 1 in Colombia and closing 1 in Argentina.

## Average rented fleet

Net revenues ( $\mathbf{R} \$$ million)

(*) Excluding the effects of the reclassification of PIS and COFINS credits

In 1Q20, the Fleet Rental division registered a $20.2 \%$ increase in the average rented fleet and $17.0 \%$ in net revenues compared to the same period of the prior year, with $3.0 \%$ reduction in the average rental rate.

The lower average rental rate of the Fleet Rental division reflects the pricing of new contracts and the renewal of existing ones in a context of lower interest rates.

Due to the conditions and duration of the contracts, the Fleet Rental division tends to be more resilient to the crisis.

## 3.1 - Net investment in the fleet

## Car purchase and sales (quantity)

## Net investment in fleet ( $\mathbf{R} \$$ million)

In 1Q20, Localiza purchased 40,879 cars, and sold 38,361, resulting in a positive balance of 2,518 cars added to the fleet and a net investment of $R \$ 192.6$ million.

On March 23, as informed to the market, Localiza closed all Seminovos stores. We estimate that sales for the month were reduced by approximately 10,000 units, impacting the results of the quarter. With the reduction in sales, the Company also adjusted the pace of car purchases as of April.

In the week of April 20, following the flexibilization of regulations regarding social distancing and complying with the safety and health protocols, the Company reopened part of its Seminovos stores, with in-person and online sales. We expect a gradual resumption of sales over the year.

Number of points of sale

In 1Q20, Seminovos network was expanded by 1 new store, totaling 124 stores in 85 cities in Brazil.

## 5 - End of period fleet

Localiza System (including franchisees) has 325,112 cars, an increase of $31.3 \%$ over the same period the previous year.

The fleet will be adjusted according to the rental demand and car sales capacity, respecting legal limitations and safety and health protocols.

## Consolidated net revenues ( $\mathrm{R} \$$ million)

(*) GAAP number including the effects of the IFRS16 and the reclassification of PIS and COFINS credits
Rental Used car sales
In 1Q20, consolidated net revenues grew 17.7\% compared to 1Q19. Net rental revenues increased 25.7\%, being 28.8\% in the Car Rental division and $17.0 \%$ in the Fleet Rental division.

Seminovos net revenues in 1Q20 increased $12.7 \%$ compared to the same period last year, driven by a $7.7 \%$ increase in average selling prices and a $4.7 \%$ increase in the volume of cars sold, impacted by the lower volumes after the social distancing measures and the closed stores in the last week of March.

The strong cash position allows the Company to sell cars at the pace of demand, at market prices.

## Consolidated EBITDA (R\$ million)

(*) $^{*} 2017$ adjusted by the one-time costs incurred - Hertz Brasil acquisition and Franchisees incorporation $\left(^{* *}\right)$ GAAP number including the reclassification of PIS and COFINS credits in Car Rental and Fleet Rental divisions

In 1Q20, consolidated EBITDA, totaled $\mathrm{R} \$ 632.7$ million, $17.6 \%$ higher than the same period of the previous year.
As of 4Q19, we started to account for PIS and COFINS credits as cost reducers. This change does not affect EBITDA but reduces net revenues. For comparison purposes, 1Q19 revenues was adjusted by reclassification so that margins become comparable.

In the Car Rental division, the EBITDA margin was 47.8\% in 1Q20, a reduction of only 1.1p.p. compared to 1Q19, even with the effects of decreases in volume and average rental rate due to the pandemic.

In the Fleet Rental division, the EBITDA margin stood at $70.4 \%$ in 1Q20, 2.3p.p. lower when compared to 1Q19, mainly due to the decrease in the average rental rate in a context of lower interest rates.

Even affected by the reduction in car sales volumes due to the pandemic, Seminovos' EBITDA margin was positive, at $1.5 \%$ in 1Q20.

## 8 - Depreciation

## Cars depreciation - Fleet Rental division (change from SOYD method to the straight-line method)

The Company reassessed the method used to appropriate the depreciation of cars in the Fleet Rental division to better reflect the equalization between maintenance and depreciation costs over the car's useful life. Accordingly, the Company decided to apply the straight-line method of depreciation to replace the SOYD ${ }^{1}$ method, previously used.

This decision was based on internal studies that concluded that the changes in maintenance cost, average mileage and average contracts' duration, indicated the straight-line method as more appropriate to reflect the consumption pattern of economic benefits over the car's useful life.

Changing the depreciation method does not change the car's depreciable amount but changes its curve over its useful life in fleet rental activity. We demonstrate the two methods below, considering the total depreciation of $R \$ 12$ thousand per car over the contract:

Depreciation methods ( $\mathbf{R} \$$ thousand)
Illustrative example for 1 car with a total depreciation of $\mathbf{R} \$ 12$ thousand

1st year 2nd year 3rd year
—SOYD method $\quad$ straight-line method

## 8.1 - Average annualized depreciation per car (R\$) - Rent a Car

In 1Q20, average depreciation per car in the Car Rental division was $\mathrm{R} \$ 2,202.4,14.9 \%$ higher than the average depreciation of 2019 and in line with the depreciation reported in 4Q19.

## 8.2 - Average annualized depreciation per car (R\$) - Fleet Rental

In the Fleet Rental division, the average depreciation per car in 1Q20 using the straight-line method was $\mathrm{R} \$ 2,397.1$. If considered by the SOYD method it would be R\$3,646.3. Initially, depreciation will be lower, as there are already depreciated cars in the fleet, positively impacting the average.

## Consolidated EBIT (R\$ million)

EBIT margins includes used car sales results, but is calculated over the rental revenues:

(*) 2017 adjusted by the one-time costs incurred - Hertz Brasil acquisition and Franchisees incorporation
(**) GAAP number including the reclassification of PIS and COFINS credits $^{*}$

Consolidated EBIT in 1Q20 totaled $\mathrm{R} \$ 434.4$ million, representing a growth of $14.7 \%$ compared to 1 Q 19 .

In 1Q20, the EBIT margin of the Car Rental division, was $31.1 \%$, representing a reduction of 6.9 p.p. compared to 1Q19, mostly reflecting the reduction in average rental rate and the increase in average depreciation per car.

In the Fleet Rental division, the EBIT margin totaled 60.7\%, an increase of 9.0p.p. compared to 1Q19. The improvement in the margin in this division is mainly due to the drop in the average annualized depreciation per car as a result of the change in the depreciation method from SOYD to straight-line.

## 10 - Consolidated net income

Net income in 1Q20 was R\$230.9 million, representing an increase of $9.5 \%$ over 1Q19, as a result of:
(+) $\mathrm{R} \$ 94.5$ million increase in EBITDA;
(-) R\$38.7 million increase in depreciation, due to the increase in the average operating fleet and higher average depreciation per car in the Car Rental division;
(-) $R \$ 22.4$ million more in net financial expenses, mainly due to the increase in the average balance of net debt in the quarter, partially offset by the lower interest rate; and
$(-) R \$ 13.3$ million increase in income tax and social contribution, due to higher taxable income and the higher effective tax rate, which increased from $22.9 \%$ in 1Q19 to $24.7 \%$ in 1Q20.

The composition of net income by rental and sales activities is shown below:

## 16 - Covid-19

On March 23, as informed in a material fact, we closed most Car Rental branches and all Seminovos stores. Since then, we adjusted the opening of the rental branches to the local and state legislation and from April 20, we resume the operations of about half of the Seminovos stores.

We present the summary of the locations and stores opened as of May 12 (preliminary, unaudited numbers), as follows:

| Network status as of May 12th | Fully operational | Operating with <br> restrictions | Closed | Total |
| :--- | :---: | :---: | :---: | :---: |
| Car Rental <br> (including franchisees) | 355 | 46 | 127 | 528 |
| Seminovos | 38 | 40 | 46 | 124 |

April was strongly impacted by the effects of the pandemic. Below are preliminary, unaudited figures referring to our operations:

| CAR RENTAL | $1 \mathbf{1 Q 2 0}$ | April, 2020 |
| :--- | ---: | ---: |
| Average operating fleet | 211,512 | 211,237 |
| Average rented fleet | 156,620 | 105,257 |
| Utilization rate (does not include cars in preparation and decomissioning) | $78.2 \%$ | $53.0 \%$ |
| Average rental rate per car (in RS) | 69.22 | 47.00 |

| FLEET RENTAL | $\mathbf{1 Q 2 0}$ | April, 2020 |
| :--- | :---: | :---: |
| Average operating fleet | 61,193 | 61,596 |
| Average rented fleet | 58,556 | 59,055 |
| Utilization rate (does not include cars in preparation and decomissioning) | $96.7 \%$ | $97.4 \%$ |
| Average rental rate per car (in RS) | 53.16 | 54.10 |

| CARS PURCHASE AND SALES | 1Q20 | April, 2020 |
| :--- | ---: | ---: |
| Number of cars purchased | 40,879 | 1,482 |
| Number of cars sold | 38,361 | 2,460 |

Due to the significant drop in the Car Rental and Seminovos volumes, the Company has been adopting measures to reduce costs, expenses and investments.

- Adjusted: financials have been recalculated to exclude the impact of incurred one-time costs related with the acquisition of Hertz Brazil and the integration of 20 franchised branches in 2017.
- Average Rented Fleet: In the car rental division it is the number of daily rentals in the period divided by the number of days in the period. In the Fleet Rental is the actual number of cars rented.
-CAGR: Compounded annual growth rate.
- CAPEX: Capital expenditure.
- Carrying Cost of Cash: Consists of the cost to maintain minimum cash position. This is the difference between the average rate of fundraising and the average rate of investment.
- Car depreciation: Depreciation is calculated based on the expectation of the future sale price net of the selling expenses. The amount to be depreciated is the positive difference between the acquisition price of the vehicle and its estimated residual value. Depreciation is calculated as long as the assets' estimated residual value does not exceed its accounting value. Depreciation is recognized during the estimated life cycle of each asset. In the Car Rental division, depreciation method used is linear. In the Fleet Rental division, depreciation is recorded according to the sum of the years' digits (SOYD) method, which better reflects the consumption pattern of the economic benefits that decrease during the cars' useful life. The residual value is the estimated sale price net of the estimated selling expense.
- Depreciated cost of used cars sales (book value): consists of the acquisition value of vehicles, depreciated up to the date of sale, less the technical discount. The technical discount is the discount given to the buyer for any required repairs that were not made. These repair costs are recorded as a charge to operating costs and as a credit to cost of cars sold.
- EBITDA: EBITDA is the net income of the period, added by the income tax, net financial expenses, depreciation, amortization and exhaustions, as defined by CVM instruction 527/12.
- EBITDA Margin: EBITDA divided by the net revenues.
- EBIT: EBIT is the net income of the period added by the income tax and net financial expenses.
- EBIT Margin: EBIT divided by the rental net revenues.
- IFRS 16: As of January 1, 2019, all companies had to adapt to the new rules of IFRS 16. Lessees now have to recognize the assets of the rights over leased assets and the liabilities of future payments for medium or long-term leases, including operating leases. The major impact we had was on the real estate lease agreements of our locations and stores.
- Operating Fleet: Includes the cars in the fleet from the licensing until they become available for sale.
- Net debt: Short and long term debts +/- the results from the swap operations, net of the cash, cash equivalents and short term financial investments. The "net debt" term is a Company's measure and cannot be compared with similar terms used by other companies.
- Net Investment in cars: capital investment in cars acquisition, net of the revenues from selling decommissioned cars.
- NOPAT: Net operating profit after tax.
- One-time costs (OTC): non-recurring costs and expenses related to the acquisition of Hertz Brazil's operations and the integration of 20 franchised branches.
- Reclassification of PIS and COFINS credits - In order to better reflect the nature of its operating costs, Localiza performed the reclassification of PIS and COFINS credits for the years ended December 31, 2019. The credits were reclassified in the income statement by division and consolidated, from the income tax heading to the cost heading.
- ROIC: Return on invested capital.
- Swap: Financial transactions carried out to hedge exchange rate and interest rate risks.
- Utilization Rate: It is the number of rental days of the period divided by the fleet available for rental multiplied by the number of days of the period and therefore, it does not include cars being prepared or being decommissioned.
