

INFORMATION TO THE MARKET

Banco do Brasil S.A. (BB) hereby informs that, for the 15th consecutive year, it was selected to compose the Corporate Sustainability Index of the São Paulo Stock Exchange (B3) – ISE 2020. BB is listed in the ISE since its launching, in 2005.

2. The ISE is a performance benchmarking tool for the companies listed on B3 under the aspect of corporate sustainability, based on economic efficiency, environmental balance, social justice and corporate governance. It also extends the understanding of companies and groups committed to sustainability, differentiating them in terms of quality, level of commitment to sustainable development, equity, transparency and accountability, nature of the product, in addition to business performance in the economic and financial dimensions, social, environmental.

3. The best companies in each segment are selected to make up the portfolio from questionnaires distributed among the issuers of the most negotiated shares in B3 and the companies selected to comprise the index become benchmarks for socioenvironmentally responsible investments.
