Brazil

Atento's flagship operation generated revenue of \$203.8 million in the third quarter of 2019, essentially flat YoY, with a 3.7% increase in Multisector revenue offset by decreased Telefónica revenues. For the nine months ended September 30, 2019, revenue increased 3.2% to \$632.5 million, with Multisector. sales up 6.5% and expanding 2.2 p.p. to 71.6% of total revenue in Brazil. Multisector revenue growth in Q3 and YTD was driven by higher volumes in existing contracts and ramp-up of new contracts with born-digital and healthcare companies. Revenue from Telefónica decreased 8.6% in the third quarter of 2019 and 4.1% YTD and represented 28.4% of total revenue in Brazil in the first nine months of 2019.

Reported Adjusted EBITDA was \$27.7 million, representing 13.6% adjusted EBITDA margin in Q3, up from 11.9% in the prior year's third quarter. Excluding the effects of IFRS 16 and extraordinary items, normalized Adjusted EBITDA margin was 12.0% in Q3 2019, up 0.1 p.p. YoY. On a sequential basis, normalized Adjusted EBITDA margin increased 0.5 p.p. reflecting positive impacts of new revenue with better profitability from programs with born-digital companies. For the nine months ended September 30, 2019, reported Adjusted EBITDA was \$82.0 million, representing a 13.0% margin.

Americas Region

Third quarter 2019 revenue in the Americas region increased 9.6% YoY to \$159.6 million, with Multisector growth accelerating to 18.6% YoY. Multisector revenue growth in the third quarter was primarily driven by higher volumes from new contracts in Mexico and Colombia. For the nine months ended September 30, 2019, revenue in the Americas region increased 2.3% to \$493.1 million, with Multisector revenue up 6.9%. The mix of Multisector revenue in the Americas was 62.0% of total regional revenue for the nine months ended September 30, 2019, a 2.8 p.p. increase versus the prior year's period. Telefónica revenues decreased 3.1% in Q3 and 4.4% YTD, mainly due to lower volumes in Peru and Chile.

+ + + + + + + + + + + + + + + +

Reported Adjusted EBITDA in the third quarter was \$17.5 million, with the adjusted EBITDA margin declining modestly by 0.4 p.p. YoY to 11.0%. For the nine months ended September 30, 2019, Adjusted EBITDA in the Americas was \$49.8 million, compared with \$66.8 million in the prior year. Excluding the effects of IFRS 16 and extraordinary items, normalized Adjusted EBITDA margin was 12.4% in the third quarter, an increase of 3.1 p.p. YoY. This increase was primarily due to better profitability from Multisector customers, mainly in Colombia, partially offset by lower Telefónica volumes in Peru and Chile.

EMEA Region

Revenue in the EMEA region declined 2.2% in the third quarter of 2019 to \$52.1 million. Third quarter EMEA revenue performance reflects 15.1% growth YoY in Multisector sales driven by higher volumes mainly in the utilities sector and with new contracts with existing customers, offset by a 13.9% decline in revenue from Telefónica, due to an unusual volume decline, which is not expected to continue. For the nine months ended September 30, 2019, EMEA revenue increased 3.1% to \$175.4 million primarily driven by 10.5% growth in Multisector sales, partially offset by a 1.7% decrease in revenue from Telefónica. As a percentage of total sales in the region, YTD Multisector revenues increased 2.8 p.p. to 42.2%.

Reported Adjusted EBITDA for the EMEA region was \$5.9 million in the third quarter, an increase of 9.1%, with the corresponding margin at 11.4%. For the nine months ended September 30, 2019, adjusted EBITDA was \$17.8 million, up 13.2% YoY. Excluding the effect of IFRS 16 and extraordinary items, normalized Adjusted EBITDA margin was 7.6% in the third quarter of 2019, compared with 10.3% in the prior year period, reflecting the ramp-up of newly acquired contracts with multisector clients and the unusually low volume at Telefónica.

Cash Flow and Capital Structure

During the third quarter, free cash flow before interest and acquisitions totaled \$22.6 million, compared with \$24.6 million in the second quarter of 2019 and \$36.7 million in the third quarter of 2018. Third quarter 2019 cash flow before interest and acquisitions was impacted by higher one-off working capital uses from a specific contract renegotiation, already normalized in Q4, as well as lower EBITDA, which includes the negative impact of extraordinary items related to operational improvements under the transformation plan. For the nine months ended September 30, 2019 cash flow before interest and acquisitions was \$8.7 million, compared with \$43.7 million for the corresponding nine months last year, with the decline mainly reflecting the same factors that impacted third quarter 2019.

Cash capex totaled 2.6% of revenue for the nine months ended September 30, 2019, tracking below the corresponding annual guidance of 3.5% to 4.5% of revenue, as company re-evaluates priorities under the transformation plan.

At September 30, 2019, Atento held cash and cash equivalents of \$105.5 million, which combined with approximately \$95.0 million in revolving credit facilities (out of approximately \$90.0 million were undrawn), represented total liquidity of approximately \$200 million.

Atento's net debt was \$419.8 million, excluding the \$145.1 million effect of IFRS 16, or \$564.9 million under IFRS 16. Reported net leverage was 3.3x, or 2.5x when excluding the effects of IFRS 16 and extraordinary items.

The criteria adopted by the Tax Administration was in connection with certain aspects, among others, of the deductibility of certain specific intercompany financing and operating expenses originated during the acquisition of Atento Spain, which was different from the tax treatment applied by the Company. As a result of this discrepancy, the amount of the tax credits of the Spanish tax group, together with the corresponding effects in subsequent tax periods, has being reduced in an amount of \$37.8 million.

Accordingly, the tax credits for losses carryforward in our financial statements for the first quarter of 2019, was negatively affected by \$37.8 million.

We define non-recurring items as items that are limited in number, clearly identifiable, unusual, are unlikely to be repeated in the near future in the ordinary course of business and that have a material impact on the consolidated results of operations. Non-recurring items can be summarized as demonstrated below:

- a) Amortization of acquisition related intangible assets represents the amortization expense of customer base, recorded as intangible assets. This customer base represents the fair value (within the business combination involving the acquisition of control of Atento Group) of the intangible assets arising from service agreements (tacit or explicitly formulated in contracts) with Telefónica Group and with other customers.
- b) Since April 1, 2015, the Company designated the foreign currency risk on certain of its subsidiaries as net investment hedges using financial instruments as the hedging items. As a consequence, any gain or loss on the hedging instrument, related to the effective portion of the hedge is recognized in other comprehensive income (equity) as from that date. The gains or losses related to the ineffective portion are recognized in the statements of operations and for comparability, and those adjustments are added back to calculate Adjusted Earnings.
- c) The tax effect represents the impact of the taxable adjustments based on tax nominal rate by country. For the three months ended September 30, 2018 and 2019, the effective tax rate after moving non-recurring items was 31.0% and 61.7%, respectively. For the nine months ended September 30, 2018 and 2019, the effective tax rate after moving non-recurring items is 31.9% and 1012,7%, respectively.

In first quarter of 2019, in the context of a global Tax Audit of the periods 2013-2016, Atento Spain, as the representative company of the tax group comprised of the Spanish direct subsidiaries of Atento S.A., signed a tax agreement with the Spanish tax authorities. As a result of this discrepancy, the amount of the tax credits of the Spanish tax group, together with the corresponding effects in subsequent tax periods, has being reduced in an amount of \$37.8 million.

Accordingly, the tax credits for losses carryforward in our financial statements for the first quarter of 2019, was negatively affected by \$37.8 million.

(**) Adjusted Earnings per share is calculated based on weighted average number of ordinary shares outstanding of 73,601,478 and 72,139,539 for the three months ended in September 30, 2018 and 2019, respectively. 73,885,474 and 73.532.509, as of for the nine months ended September 30, 2018 and 2019.

^{1.} In considering our financial condition, our management analyzes Net debt with third parties, which is defined as total debt less cash and cash equivalents. Net debt with third parties is not a measure defined by IFRS and it has limitations as an analytical tool. Net debt with third parties is neither a measure defined by or presented in accordance with IFRS nor a measure of financial performance and should not be considered in isolation or as an alternative financial measure determined in accordance with IFRS. Net debt is not necessarily comparable to similarly titled measures used by other companies.

^{2.} Adjusted EBITDA LTM (Last Twelve Months) is defined as EBITDA adjusted to exclude restructuring costs, site relocation costs and other items not related to our core results of operations. Excluding IFRS 16 and extraordinary items, the Net Debt is \$419.8 million and EBITDA LTM \$167.4 million, so leverage was 2,5x.

^{3.} Consider the impact in September 30, 2019 of application of IFRS 16 (former operating leases not related to short-term or low-value leases are now shown as debt) was \$145.1 million and \$3.1 million of other financial leases.

(3) In first quarter 2019, in the context of a global Tax Audit of the periods 2013-2016, Atento Spain, as the representative company of the tax group comprised of the Spanish direct subsidiaries of Atento S.A., signed a tax agreement with the Spanish tax authorities. The criteria adopted by the Tax Administration was in connection with certain aspects, among others, of the deductibility of certain specific intercompany financing and operating expenses originated during the acquisition of Atento Spain, which was different from the tax treatment applied by the Company. As a result of this discrepancy, the amount of the tax credits of the Spanish tax group, together with the corresponding effects in subsequent tax periods, has being reduced in an amount of \$37.8 million.

Accordingly, the tax credits for losses carryforward in our financial statements for the first quarter of 2019, was negatively affected by \$37.8 million.
