## Limited assurance report issued by independent auditors

To the Board of Directors, Shareholders and Stakeholders  
**SulAmérica Companhia Nacional de Seguros**  
São Paulo - SP

### Introduction

We have been engaged by SulAmérica Companhia Nacional de Seguros (“SulAmérica” or “Company”) to apply limited assurance procedures on the sustainability information disclosed in 2019’s Annual Report, related to the year ended December 31<sup>st</sup>, 2019.

### Responsibilities of SulAmérica’s Management

The Management of SulAmérica is responsible for adequately preparing and presenting the sustainability information in the Annual Report 2019 in accordance with the *Standards for Sustainability Report of Global Reporting Initiative -GRI*, as well as the internal controls determined necessary to ensure this information is free from material misstatement, resulting from fraud or error.

### Independent auditors’ responsibility

Our responsibility is to express a conclusion about the information in the Annual Report 2019 based on a limited assurance engagement conducted in accordance with Technical Communication (TC) 07/2012, which was prepared based on NBC TO 3000 (Assurance Engagements Other Than Audits and Reviews), both issued by the Brazilian Federal Accounting Council - CFC and equivalent to international standard ISAE 3000, issued by the International Federation of Accountants and applicable to Non-Financial Historical Information. These standards require compliance with ethical requirements, including independence ones, and the engagement is also conducted to provide limited assurance that the information disclosed in the SulAmérica’s Annual Report 2019, taken as a whole, is free from material misstatement.

A limited assurance engagement conducted in accordance with NBC TO 3000 (ISAE 3000) consists mainly of questions and interviews with the Management of SulAmérica and other professionals of the Company involved in the preparation of the information disclosed in the Annual Report 2019 and use of analytical procedures to obtain evidence that enables us to reach a limited assurance conclusion about the sustainability information taken as a whole. A limited assurance engagement also requires additional procedures when the independent auditor acknowledges issues which may lead them to believe that the information disclosed in the Annual Report 2019 taken as a whole could present material misstatement.

The selected procedures were based on our understanding of the issues related to the compilation, materiality and presentation of the information disclosed in the Annual Report 2019, on other engagement circumstances and also on our considerations regarding areas and processes associated with material sustainability information disclosed where relevant misstatement could exist. The procedures consisted of:

- (a) Engagement planning: considering the material aspects for SulAmérica's activities, the relevance of the information disclosed, the amount of quantitative and qualitative information and the operational systems and internal controls that served as a basis for preparation of the information in the SulAmérica's Annual Report 2019. This analysis defined the indicators to be checked in details;
- (b) Understanding and analysis of disclosed information related to material aspects management;
- (c) Analysis of preparation processes of the Annual Report 2019 and its structure and content, based on the Principles of Content and Quality of the *Standards* for sustainability report of the Global Reporting Initiative - GRI (GRI-Standards);
- (d) Evaluation of non financial indicators selected:
  - Understanding of the calculation methodology and procedures for the compilation of indicators through interviews with management responsible for data preparation;
  - Application of analytical procedures regarding data and interviews for qualitative information and their correlation with indicators disclosed in the Annual Report 2019;
  - Analysis of evidence supporting the disclosed information;
- (e) Analysis of whether the performance indicators omission and justification are reasonable to be accepted associated to aspects and topics defined as material in the materiality analysis of the Company;

We believe that the information, evidence and results we have obtained are sufficient and appropriate to provide a basis for our limited assurance conclusion.

#### **Scope and limitations**

The procedures applied to a limited assurance engagement are substantially less extensive than those applied to a reasonable assurance engagement. Therefore, we cannot provide reasonable assurance that we are aware of all the issues that would have been identified in a reasonable assurance engagement, which aims to issue an opinion. If we had conducted a reasonable assurance engagement, we may have identified other issues and possible misstatements within the information presented in the Annual Report 2019.

Nonfinancial data is subject to more inherent limitations than financial data, due to the nature and diversity of the methods used to determine, calculate or estimate these data. Qualitative interpretation of the data's materiality, relevance and accuracy are subject to individual assumptions and judgments. Additionally, we have not examined data related to prior periods, evaluated the adequacy of the company's policies, practices and sustainability performance, nor future projections.

### **Conclusion**

Based on the procedures carried out, described earlier in this report, we have not identified any relevant information that leads us to believe that the information in SulAmérica's Annual Report 2019 is not fairly stated in all material aspects in accordance with the *Standards for Sustainability Report of Global Reporting Initiative - GRI (GRI- Standards)*, as well as its source records and files.
